

Horváth Nóra és Mészáros Máté

Mate & Nora

I really liked the partnering class of Nora and Mate. They could use the time fruitfully and guide the students from one step to the other. Also they could follow our improvement and give clear and very useful suggestions both individually and as a group.

Not less important, I had fun. Thank you!

It is a good combination of teachers, because of Mate's experiences and Nora's energy. The class was very useful, but sometimes too monotonous. We miss a bit a variety of class, to put elements in the sequences and be more spontaneous with elements we learned. We got a lot of personal instructions and corrections that were really good and useful.

Máté, Nóri: Kicsit hátráltatott, amikor elkezdünk egy új feladatot és menet közben leállítjátok javítás céljából, viszont lehet, hogy magunktól is rájövünk, ha megcsináljuk egy párszor.

Ezen kívül nagyon élveztük az órákat és jól összehangolódtunk.

For the beginners, when we got all together and started doing materials the advanced group already knew, it was extremely hard for them, but they soon got to our level. The energies are always there. It's good that we stick to the sort of same exercises in the beginning for warm up. They find it important to always change partners, which turned out as an important rule.

Very kind person, makes the atmosphere on a high level on every class.

Using different ways to motivate, encourage us and bring us a lot of energy. His classes are full of work and everybody is trying their best.

It is not stressful, but it's very physical and strong.

During the whole class he keeps us concentrated and motivated. Personal corrections for each of us also give us motivation. Nóri is a beautiful dancer, but she doesn't have main role in the class.

Nóri

Kevés óránk volt veled, de azon kellemes, lelkes voltál. Köszí.

Nóri,

jó szemed van a korrekciókhoz, tudod, mi a hiba, mit kell javítani. Nagyon jól elmagyarázod és megmutatod, hogyan lehet az adott mozdulatot helyesen kivitelezni. Mátéval szerintem egy nagyon jól felépített anyagot adtatok át nekünk az év folyamán. Élveztem azt a kevés alkalmat, amikor veled csináltam pár gyakorlatot. Jó volt megtapasztalni, hogy mennyivel könnyebb olyan valakit elkapni, aki pontosan csinálja az adott mozdulatot.
