- Bibliography

Advices:

1. Regarding bibliography in addition to the internet go to library, ask experts for advice as well!
2. The texts you write on this stage will not necessarily be part of your final thesis. You can take them as starting points.
3. Writing thesis is a creative work. Similar to your studio work. A lot of thoughts come up, you try (write) a lot, and later you have to choose from them. It is normal, that you can not write a text ready-for-print regarding style, structure and thoughts.
